

Rugged And Reliable Protection.

Every day tough meets every
day carry.

The new Stoeger STR-9 family striker-fired, semiautomatic pistol blends form and function to create an all-around solution for everyday carry, home protection and matches defense and law enforcement requirements.

Featuring a corrosion-resistant black nitride finish, the STR-9 family integrates a picatinny rail, reversible magazine release, interchangeable backstrap grips and its enhanced ergonomics deliver consistent performance and comfort.

The STR-9 family's grip angle is engineered to match the drift-adjustable, three-dot sights for true target alignment and combines with a low-bore axis for reduced muzzle rise to quickly reacquire targets for follow-up shots.

Aggressive front and back slide serrations provide a firm grasp with or without gloves. A smooth-pulling, crisp trigger houses an internal safety for extra security.
